## Software Developer

(+61) 424515722 | [tanquytuong@gmail.com](mailto:tanquytuong@gmail.com) | <https://www.linkedin.com/in/tan-quy-tuong/>  
Bankstown, Sydney NSW | <https://www.tuong-tan-dev.com/> | Full Australia working rights, no restrictions.

## PROFILE SUMMARY

Software Developer with 3 years of experience delivering full-stack solutions for global enterprise clients. Proficient in modern frontend technologies including Vue.js, React/React Native, JavaScript/TypeScript, and backend development using .NET (C#), Java Spring Boot, and Node.js. Experienced with multiple database tools and cloud-based development using Azure DevOps, AWS.

## TECHNICAL SKILLS

- Frontend: HTML, CSS/LESS, JavaScript/TypeScript, Vue.js, React/React Native
- Backend & APIs: .NET (C#), Java, Node.js, Express.js, RESTful APIs, GraphQL, Microservices
- Databases & Data: SQL, NoSQL, XML, Algolia, Firebase, Json
- Tools & DevOps: Git, Docker, Maven, Azure DevOps, Google Cloud, AWS
- CMS & Platforms: Adobe Experience Manager (AEM)

## WORK EXPERIENCE

**Netcompany** *.NET Backend developer (Data migration system)* **Jul 2024 - Feb 2025**

**Tech stack:** .NET, RESTAPI, SQL Server, DBeaver, Azure Devops

- Designed and operated secure .NET C# data-migration pipelines to transfer large volumes of legacy data to modern platforms, achieving 95%+ successful record migration while maintaining data integrity and validation standards.
- Improved data quality and system readiness by defining new data models and enriching incomplete records through third-party API integrations and automated validation.
- Increased reporting efficiency by 80% using advanced SQL (SQL Server, DBeaver) to analyse migration results, troubleshoot failures, and generate actionable insights.

**Netcompany** *Full stack developer (CMS web using AEM)* **Jul 2022 - Jul 2024**

**Tech stack:** AEM, Vuejs, Java Springboot, MySQL, XML, GraphQL, JUnit, Algolia

- Developed and maintained an enterprise-grade CMS using Adobe Experience Manager (AEM) and Vue.js, delivering scalable and secure content solutions.
- Built reusable AEM components, templates, content structures with XML, Sling Models, Content Fragments to support enterprise needs.
- Configured workflows, managed web configurations, and integrated AEM with Java Spring Boot services and GraphQL APIs for seamless backend–frontend communication.
- Leveraged the JCR content repository and implemented Algolia search to improve content management and retrieval performance by 90%.
- Delivered the project ahead of schedule, enabling the client to launch their website ahead of their 100-year anniversary, strengthening trust and securing contract extensions. contract extension and plans to invest further by expanding the development team.

**Netcompany** **May 2023**

- 1st place - Completed training in Denmark, gaining hands-on experience applying Agile principles across the full development lifecycle, delivering project within a short time-frame.

## PERSONAL PROJECT

**Utilities** <https://github.com/TuongTan-Heli/Utilities-Android> **Apr 2025 - Present**

**Tech stack:** React Native, Typescript, Nodejs, Express.js, NOSQL, Firebase, RESTful APIs, Algolia

- Developed a cross-platform mobile utility app (task management, expense tracking) using React Native + TypeScript, building reusable UI components and responsive layouts to support multiple device sizes and data interactions..
- Implemented a scalable cloud backend API using Firebase Functions (Express.js) and Firestore, and integrated Algolia full-text search, enabling near real-time search and faster retrieval (80–90% improvement) for complex user queries.

**Portfolio** <https://github.com/TuongTan-Heli/Portfolio>

<https://www.tuong-tan-dev.com/>

**Sep 2025**

**Tech stack:** Reactjs, Typescript, Json, Tailwindcss, Framer motion, Vercel

- Developed a responsive portfolio website using React, TailWindCS to support dynamic content, good UI system across multiple device.
- Built reusable React components, integrated Framer Motion animations, React hooks to optimize state management and create smooth, interactive user experiences.

## EDUCATION

**Bachelor of Science and Technology**

*University of Greenwich Viet Nam*

**2019 - 2022**

## CERTIFICATIONS

- Microsoft - AZ-900 Certification - Azure Fundamentals - Mar 2023
- Adobe - AEM Professional Developer - Jun 2024
- Amazon Web Services - AWS Certified Cloud Practitioner - May 2026
